

# **BIONICON** local ambassador program.

Bionicon has recently set up a Local Ambassador Program (LAP) for people that live outside of our current sales regions and are actively involved with their local bike community. The LAP is for motivated people who would be interested in promoting, representing, potentially selling Bionicon in their local area. What we offer are three LAP levels, our lowest level would give you 20% off retail pricing for your bike and a few other cool benefits. We would provide you with marketing materials and arm you with enough info to be an informed ambassador. If you want to be the first to show your friends this incredible technology and believe you have a lot to offer Bionicon, you may qualify to be an Ambassador. Please send information about yourself and your local influence for us to review. **RIDE WITH US!**

Please send your story, rider résumé and picture to: [ambassador@bioniconus.com](mailto:ambassador@bioniconus.com)  
All serious applicants will receive a FREE BIONICON T-SHIRT! So don't forget to include your mailing address and T-shirt size.
